

College and Career Awareness

Ms. Hale

Sandra.Woolleyhale@Jordandistrict.org

Please return bottom portion by Friday August 28

Due to allergies, your student will NOT be able to participate in the food lab until the bottom portion of this form is returned.

This first quarter your student will be participating in various activities related to careers in the areas of education, fashion, food/nutrition, and healthcare. We will be making food in the food lab, learning how to care for children, research medical occupations and learning to sew.

Our class will be meeting in three rooms throughout this quarter. Classroom 212, the sewing lab, and the food lab. During the sewing and food labs, students will always be expected to show appropriate behavior, for their safety and others. Failure to do so will result in loss of lab privileges. Since this class is considered a "high risk" class, I will be scanning for the student's temperature before class to ensure the safety to everyone. It is the student's responsibility to clean their space and use hand sanitizer at the beginning of each class period.

Supplies needed for all classes

1 college ruled composition book

A pack of colored pencils and glue stick to keep in backpacks at their desk

Hand lotion for dry sanitized hands

Grade breakdown: Grades will be based on students showing understanding of the standards.

80% - Assessments

20% - Classwork

****Please list any food allergies your student has. Allergies to medications are not pertinent, but any items we might cook with are. If your child has no allergies, please circle "NONE."

CCA Ms. Hale Rm 212

Food Allergies _____ OR "NONE" (Circle)

I AGREE and understand all the items and expectations of this course.
