

FACS Exploration

Ms. Hale

Sandra.Woolleyhale@Jordandistrict.org

Please return bottom portion by Friday August 28

Due to allergies, your student will NOT be able to participate in the food lab until the bottom portion of this form is returned.

FACS stands for “Family and Consumer Science”. During this semester, your student will gain practical skills that students can use now and for the rest of their life. These skills include: making decisions and goals, cooking and eating healthy, sewing and clothing care, interior design and taking care of children. Including “Being a parent for a day (24 hours).”

- Our class will be meeting in 3 rooms throughout this semester. Classroom 212, sewing lab, and the food lab. During the sewing and food labs, students will be expected to show appropriate behavior at all times, for their safety and others. Failure to do so will result in loss of lab privileges. Since this class is considered a “high risk” class, I will be scanning the student’s temperature before class to ensure the safety to everyone. It is the student’s responsibility to clean their space and use hand sanitizer at the beginning of each class period.

Supplies needed for all classes

Lab fee \$10

1 college ruled composition book

A pack of colored pencils and glue stick to keep in their backpack at their desk

1 shoe box (bring any time before September 10)

Grade breakdown: Grades will be based on students showing understanding of the standards.

80% - Assessments

20% - Classwork

****Please list any food allergies your student has. Allergies to medications are not pertinent, but any items we might cook with are. If your child has no allergies, please circle “NONE.”

FACS Exploration Ms. Hale Rm 212

Food Allergies _____ OR “NONE” (Circle)

I AGREE and understand all the items and expectations of this course.
